ALL NEW

TracVision[®] SlimLine Series

What TV on an RV was meant to be!SM

Never miss the fun on the road!

“The bus is often better equipped for watching games and doing my pre-game homework than the nice hotels where I stay. I’ll go down on the bus and watch the games there where I can choose which games to watch. With the great HD-television quality, TracVision is the best seat in town for watching the game.”

— *John Madden,
Hall of Fame NFL Coach
and Emmy Award-winning
Broadcaster*

Choose TracVision, choose the best!

KVH’s new TracVision® SlimLine Series lets you experience what satellite TV in an RV was meant to be! Hassle-free, easy to install, and HDTV-ready¹, these systems are unmatched in their quality and reliability. With four different 12" high designs, the TracVision SlimLine Series brings the best in mobile satellite TV to every RV owner, no matter what their needs are or where they are going.

Best reception and tracking in the RV industry –

Laboratory testing proves that TracVision SlimLine systems offer better reception than even the competition’s larger 15" antennas for crystal-clear reception when parked or on the go...and in all weather conditions!

Easy to use and works just like at home –

TracVision SlimLine’s fully automatic operation allows you to watch programming being broadcast by different satellites using only your remote control! And watch high-definition programming just as easily with KVH’s exclusive new HDTV Tri-Sat AutoSwitch™ option for DIRECTV® HDTV Service.²

#1 choice in the RV industry –

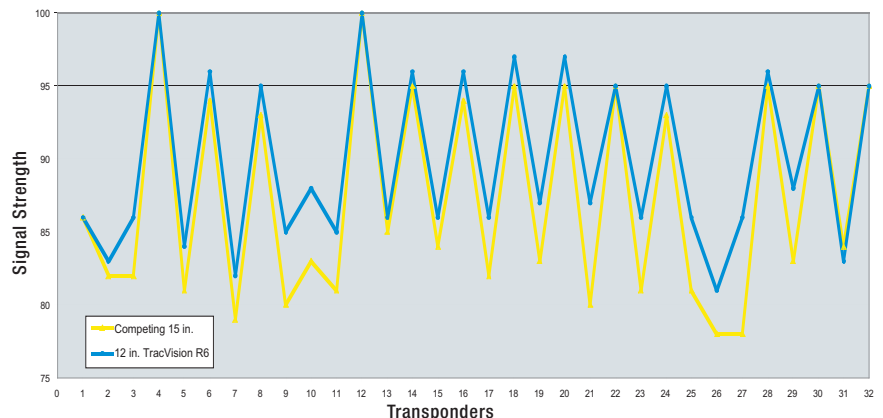

Premier RV manufacturers nationwide have chosen the TracVision SlimLine Series because they know that they can rely on KVH for the highest-quality product on the market.

Built to last –

KVH stands behind the unmatched quality and reliability of its products. As manufacturers of military and marine products for over 20 years, KVH knows how to build a system that you can rely on for years of enjoyment and outstanding performance. Just take a look under one of our domes and compare it to the competition to see the difference in quality of manufacture and design. No wonder KVH is the world’s leading manufacturer of mobile satellite TV antenna systems for RVs, boats, and automobiles, with over 150,000 antennas fielded worldwide.

Why signal strength is important

As demonstrated in laboratory tests, TracVision SlimLine antennas offer better reception than larger competing 15" antennas because they are more powerful (higher signal gain). Better antenna signal gain benefits you during bad weather and in places where satellite signal strength is weaker – just where you may be on your next trip! When less-than-perfect weather keeps you inside, make sure you have the satellite TV system that performs and won’t leave your TV with the message, “SEARCHING FOR SATELLITE”!

¹Requires DIRECTV HDTV receiver (H21-200/H20-600), KVH HDTV Tri-Sat AutoSwitch option, and HD-ready television.

²DIRECTV Ku band satellite content only; see kvh.com/hdlineup for details.

KVH's all-new 12" high TracVision SlimLine Series

A low-profile antenna doesn't have to mean inferior performance. RV owners no longer have to choose between an attractive system and a reliable one – KVH's TracVision Slimline Series' super-efficient 12" high antennas not only look great on any RV, but ensure that you'll receive crystal-clear reception and the finest tracking available, wherever you go!

All TracVision SlimLine Series models offer:

- Access to 300+ channels of satellite TV and commercial-free, digital music programming
- Highest signal strength available – better than the competition's 15" high antennas!
- Fastest satellite acquisition and unsurpassed tracking
- DIRECTV® HDTV-compatibility using KVH's exclusive new HDTV Tri-Sat AutoSwitch option
- Fully automatic satellite switching using your remote control – even with HDTV programming! (a KVH exclusive)
- Unmatched quality and reliability

TracVision R6dx

In-motion Satellite TV Antenna System with Complete DIRECTV HDTV Solution²

The premier high-definition system for RVs! Designed to be your ultimate integrated HDTV solution, the in-motion TracVision R6dx comes complete with a free DIRECTV HDTV receiver³ and KVH's new HDTV Tri-Sat AutoSwitch option – everything you need to hit the road with DIRECTV HDTV!⁴ Includes KVH's DewShield™ electronic dew elimination system (patent pending).

TracVision R5sl

In-motion Satellite TV Antenna System

The in-motion satellite TV system chosen by leading RV manufacturers for its ease of use and unsurpassed reception, the TracVision R5sl lets you enjoy the best that satellite TV has to offer whether you are parked for the night or cruising to your next great adventure!

TracVision R6st

In-motion Satellite TV Antenna System with Integrated 12V DIRECTV Receiver

A total DIRECTV-on-the-go solution; the TracVision R6st comes complete with KVH's exclusive 12V mobile DIRECTV receiver with RF remote for easy on-screen messaging and setup, plus DewShield electronic dew elimination system for the best reception in all weather conditions.

TracVision R4sl

Stationary Satellite TV Antenna System

The ideal solution for value-oriented RV owners, the TracVision R4sl brings premium satellite TV to your parked RV whenever you stop and relax! An excellent solution for fifth-wheels and any RV that does not require the features of a full in-motion system, the TracVision R4sl also offers an easy upgrade to full in-motion operation.

³ With activation through KVH.

⁴ Baseline version available for use with DISH Network or ExpressVu; does not include HDTV components. Requires customer-supplied receiver.

SlimLine Series antennas are available in white, black, or gray.

TracVision A7

5" high, In-motion Satellite TV Antenna System with Integrated 12V DIRECTV Receiver

For vehicles needing a streamlined look such as conversion vans or vehicles with low-clearance requirements such as tall motor-coaches – the 5" high TracVision A7 is the ideal in-motion* DIRECTV satellite TV system.

* The TracVision A7's flat dome is ideally suited to in-motion operation and, like all flat top antennas, may experience rain fade from standing water when the RV or coach is parked.

The #1 choice of RV manufacturers

"KVH's TracVision antennas allow our customers to stay in touch with the world around them through news, music, and entertainment, wherever they travel. We selected KVH and its TracVision systems as our satellite TV solution because they offer the same high quality, value, and versatility that our customers expect of Monaco coaches."

“We've had a very positive experience with our TracVision and, after showing it to other folks, we know a lot of other guys who are putting KVH systems on their trucks. The TracVision has been reliable and it's been great working with the people at KVH. Every time we've called with a question, we talk to someone who cares. They want the product to work and it does.”

TracVision owner for more than
1.2 million miles

KVH – the leader in mobile satellite antenna systems

KVH Industries is the world's leading provider of mobile satellite television antenna systems as well as the #1 choice of North America's premier RV manufacturers. With more than 150,000 mobile satellite antennas sold, KVH has supplied more in-motion satellite TV and communications systems for mobile applications than any other manufacturer in the world. Tens of thousands of RV, motorcoach, boat, and automobile owners enjoy digital-quality television programming thanks to KVH's diverse family of award-winning TracVision antennas.

Unsurpassed warranty and support

KVH's commitment to quality and reliability is unmatched; TracVision antennas are the most reliable on the road. Every TracVision system undergoes the most stringent quality checks in the industry, including highly accelerated lifecycle testing, military specification environmental tests, shock and vibration testing, and in-depth functional evaluations prior to delivery. An ISO 9001:2000-certified organization, KVH meets the highest international standards for quality. Our award-winning commitment to quality is also illustrated by our industry-leading warranty as well as our exclusive Platinum Protection Plan, which allows you to extend your warranty for an additional 2 years! We offer North America's broadest network of authorized dealers, 24/7 online support and troubleshooting; a responsive technical and customer support team; and highly trained dealers in KVH's Certified Support Network (CSN).
